

## February 2009 Announcement

# 13th Asia Pacific Vibration Conference

22 – 25 November 2009

University of Canterbury, Christchurch, New Zealand

An invitation to academics, practitioners and scientists involved in the various aspects of dynamics, control, sound and vibration.

The objectives of this conference (in keeping with the past 12 conference experiences) are to:

*Promote research and practice in the field of dynamics, control, sound and vibration*

*Provide an enriching opportunity to network*

*Strengthen the link between researchers and practitioners in the field*

Authors of accepted abstracts will be required to submit an **article / full paper** of 8 pages (maximum length) before 12 August 2009 for inclusion on the conference proceedings CD.

### **Key Dates for Authors**

Abstract submission opens 25 February

Abstract submission closes 17 April

Notification of acceptance 30 April

Full papers due 12 August

Author registration 12 August

## 2009 Topics

<b>Educational Aspects in Dynamics</b>	<b>Damping</b>
<b>Analytical and Computational Methods</b>	<b>Dynamics of Machines and Structures</b>
<b>Bio-Medical Applications</b>	<b>Dynamics of Plant Structures and Systems</b>
<b>Effects of Noise and Vibrations</b>	<b>Experimental Modal Analysis</b>
<b>Impact Dynamics</b>	<b>Industrial Noise and Vibration</b>
<b>Noise Sources and Control Elements</b>	<b>Modal Analysis</b>
<b>Machine Condition Monitoring</b>	<b>Nonlinear Vibration and Chaos</b>
<b>Rotor Dynamics and Turbo-machinery</b>	<b>Vehicle Dynamics and Control</b>
<b>Noise and Vibration Isolation and Reduction</b>	<b>Noise and Vibration Control</b>
<b>Signal Processing</b>	<b>Sensor Technology</b>
<b>Maintenance and Reliability</b>	<b>Related Topics</b>
