(Say the name of course member) is doing a project at the university. She/he is going to work with your teacher and Mum and Dad (as applicable) to help you (say the name of the project).

S/he will watch you play and take notes about what you do and how you do it. S/he will also chat to other people who work with you to see what they think will help with (say the name of the project). During this time, everything will be just the same - nothing will change. After (name of course member) has finished doing that, s/he will chat to you about what we can all do to help with (say the name of the project). A plan will then be put in place so you can (say the name of the project).

As you have been selected, you will be given a code name so that no-one will know your name, the course member’s name/ my name /your parents name or the name of our school/centre (as applicable).

Your Mum and Dad/teacher (as applicable) has also been asked to help. If you have any questions, you can talk to your Mum or Dad or to me (as applicable). If you change your mind about being in the project, that’s fine, too. All you have to do is to tell your Mum or Dad or me (as applicable).

Thank you for helping with the project.
