

Data Handbook

07

Introduction

This Data Handbook is produced annually by the Planning, Information and Reporting Unit. It complements the University's Annual Report and is intended to be a principal source of data on the University for both internal and external University stakeholders. The tables contained in the Handbook provide a summary of statistics relating to the University's students, academic programmes, staff and other resources.

This edition of the Handbook has a notable addition to previous years' versions. On 1 January 2007, the former Christchurch College of Education merged with the University of Canterbury. To facilitate the change in administration, a new College of Education was formed within the University of Canterbury's college structure from that date. Statistics in this year's Handbook reflect that merger.

In order to make the information more readily accessible, electronic versions of the Handbook and individual tables are available from the PIRU website (see below).

<http://www.canterbury.ac.nz/piru>

Any enquiries and comments regarding the document should be directed to the Planning, Information and Reporting Unit.

- Table 20: Research Funding - External
- Table 21: Library Profile
- Table 22: Facilities Profile

Note: Some of the EFTStudents figures that appear in this handbook do not add up exactly to the totals given. This is because the figures have been rounded from multi-decimal place returns provided to the Tertiary Education Commission. In all instances the rounding is not material.

Glossary

Academic Staff: Staff employed to perform the functions of teaching or research.

Academic Unit: Units (Schools and/or Departments) that are engaged in activities directly related to the University's core functions of teaching and research.

Award: Recognition of the successful completion of a programme of study that has been approved by a recognised quality assurance agency and is recognised by the Tertiary Education Commission as qualifying for tertiary tuition funding.

Award Level: This can be either undergraduate or postgraduate. Undergraduate award enrolment includes enrolment both in degrees and in sub/non degree awards such as Foundation Studies. The attainment of an undergraduate degree is a prerequisite for enrolment in a postgraduate award.

Cultural Enrolment: Enrolment in courses offered by the University for purposes other than credit towards an award.

Domestic Fee student: A student who qualifies for Government Student Achievement Component funding (formerly known as Student Component or EFTS funding). These students are usually New Zealand citizens, permanent residents, or Australian citizens but domestic fees are also paid by French and German postgraduate students as well as international students enrolled in an approved doctoral study programme.

Equivalent Full-Time Students (EFTS): A measure of student workload that is based on the number and workload of the courses in which a student is enrolled. One (1.0) EFTS is defined as the student workload that would normally be carried out in a single academic year (or a 12 month period) by a student enrolled full-time.

Ethnicity: The ethnic group or groups to which a student belongs. At enrolment, a student may nominate up to three ethnic categories. For statistical purposes, each student is classified to one ethnic group only, according to a standard hierarchical order defined by Government.

First-Year Student: A student identified as being in their first year at Canterbury University, irrespective of their level of study. Students who had attended the Christchurch College of Education prior to its merger with the University of Canterbury on 1 January 2007 have been excluded from the count of first-year EFTS in 2007.

Full Fee Paying student: Sometimes known as Foreign Fee paying student. A student who does not qualify for Government Student Achievement Component funding (formerly known as Student Component or EFTS funding). These students meet full tuition costs on their own or from funds provided to them by sponsors other than the New Zealand Ministry of Foreign Affairs and Trade.

Full-time Equivalent Staff (FTE): A measure used for reporting staff numbers. Generally, 1.0 FTE is equivalent to a staff member who is employed for 37.5 hours per week.

General staff: University staff not otherwise classified as academic staff.

International Student: This is a citizenship category. In these terms, an international student is an overseas student who has come to New Zealand for the purpose of education, and/or is studying on a student permit or diplomatic passport, irrespective of the type of fee being paid. Two things need to be noted here: (a) some students of international citizenship pay domestic fees (French and German postgraduate students as well as overseas students studying in an approved doctoral programme); and (b) students with Australian citizenship are not included in the "international" category.

Research-based postgraduate student: Also referred to as a thesis student. A postgraduate student whose work is supervised and results in the production of a substantial research output amounting to 100 percent of the learning and assessment for the course or courses.

Single Data Return (SDR): An electronic collection of student statistical and tertiary student enrolment information that is submitted three times a year (April, August and December) to the Tertiary Education Commission. The tertiary tuition data and forecasts in the SDR contribute towards the determination of Government funding.

Study Workload: A student's enrolment is classified as full-time if the student is enrolled in courses with a total value for the year of at least 0.8 EFTS. Otherwise the student is classified as part-time.

Taught EFTStudents: This covers both EFTS returned to the Tertiary Education Commission and EFTS taught but not returned. The latter includes, for example, cases where a student is enrolled at another institution but is taught on contract by the University of Canterbury.

Tertiary Education Commission (TEC): The crown entity responsible for funding all post-compulsory education and training offered by universities, polytechnics, wananga, private training establishments, foundation education agencies, industry training organisations and adult and community education providers. At regular intervals, every provider furnishes the TEC with a return covering its institution's activities. This is known as the Single Data Return SDR (see above).
