Sound symbol games with speech targets Required: Alphabet cards and game boards

Place out 6 speech cards in front of each child or choose a <u>speech target</u> <u>bingo board.</u> The cards should include each child's speech target word plus some distracter items. For example, if the child's speech target is /st/ consonant cluster words, select 3 /st /cluster speech cards plus 3 words that start with letters that are visually distinct from s and each other (e.g., m f and p speech cards) as used on the bingo boards in this file.

"Yes you've picked up the letter s, s makes a /s/ sound. Do you have any words on your board that start with the letter s that makes a /s/ sound". Hold the letter s under each word for visual matching if necessary. Child labels "stem stop star" and is encouraged to articulate the words accurately as appropriate to speech articulation goals.
