## The Degree of Doctor of Philosophy (PhD)

*These regulations apply to all PhD candidates enrolled from 1 December 2007. Candidates first enrolled at an earlier date continue under the regulations in force at that time (but see Clause 13 for transition provisions).*

For guidelines to these Regulations and further information, consult the Postgraduate Office or the Policy Library.

### 1. Nature of the degree

- Study for the degree of Doctor of Philosophy involves a sustained, rigorous and systematic approach to the relevant body of knowledge, undertaken through experimentation, archival work, or other appropriate means. It includes an original research project that makes a significant contribution to knowledge and understanding or application of knowledge. It requires the preparation of a substantial thesis that presents the outcome of the research and places it in the broader framework of the discipline or field of study. Undertaken under qualified supervision, it promotes intellectual independence and the capacity to undertake further research at an advanced level.
- The thesis must meet recognised international standards for such work.
- The thesis must be submitted in English or te reo Maori and should not exceed 100,000 words in total, excluding appendices, without the permission of the Dean of Postgraduate Research. Candidates wishing to submit and defend a thesis in Maori must seek approval at the time of registration. A recommendation will be made by the Assistant Vice-Chancellor (Maori) or nominee as to the candidate's fluency and literacy in te reo Maori in the thesis subject-area and the likelihood of being able to find appropriately qualified examiners for the thesis.

## 2. Conditions of enrolment

- (a) Every candidate, before enrolling for the degree, must be approved as a candidate by the Dean of Postgraduate Research
- (b) Every candidate for the degree must either:
  - i. have qualified in New Zealand for a Bachelor's degree with first or second class honours, or a Master's degree at the standard of first or second class honours, or the equivalent; or
  - ii. have been admitted ad eundem to the status of a graduate equivalent to (i) above.
- (c) The Dean of Postgraduate Research must be satisfied that the candidate has adequate training and ability to pursue the proposed course.
- (d) In special circumstances, the Dean of Postgraduate Research may approve the enrolment of a graduate who does not hold one of the qualifications under Regulation 2(b), but who has produced satisfactory evidence of adequate training and ability to pursue the proposed course.

## 3. Enrolment and registration

- (a) A candidate shall apply for enrolment on the 'PhD Application' form. The form, which must be signed by the Head of Department/School, must nominate a potential Senior Supervisor, indicate the general field of study, and recommend a date of enrolment. If the enrolment is approved by the Dean of Postgraduate Research, he or she shall confirm the date of enrolment.

*The prescribed form is obtainable from the Postgraduate Office or on the Postgraduate Studies Website.*

*Members of the supervisory team are not formally appointed until the research proposal has been approved and registered. Regulation 5, below, deals with supervision.*

*When enrolment is approved, a copy of all regulations and procedures governing study for the degree, including these guidelines, will be sent to the candidate by the Postgraduate Office. Copies of these guidelines are also available from the candidate's Department/School, and on the Postgraduate Studies website.*

- (b) Once enrolled, the candidate shall work to develop a research proposal under the guidance of a potential Senior Supervisor who shall normally be a continuing member of the University of Canterbury academic staff. Within six months of enrolment for the degree, the candidate shall present a proposal to the Head of Department/School for approval and forwarding to the Dean

of Postgraduate Research for approval and formal registration. Failure to obtain such approvals within six months may lead to termination of enrolment.

*During this initial enrolment period, the candidate should be considered as a full PhD student and afforded the appropriate facilities and resources. During this enrolment period it is expected that the candidate will meet frequently (at least monthly) with their proposed senior supervisor as the thesis proposal is developed. Consideration should also be given at this time to the nomination of co- and associate supervisors for the project. It is expected that members of the supervisory team (i.e., co-, associate- assistant- supervisors) will be identified early and that they will play an active role in assisting the candidate in developing his/her thesis proposal.*

*Departments/Schools are expected to have rigorous procedures for the evaluation of thesis proposals that are undertaken prior to the submission of the proposal and registration form to the Postgraduate Office. Students should be provided with clear and detailed information regarding the departmental/school procedures and timeline for proposal evaluation.*

*If an acceptable proposal is not submitted to the Postgraduate Office within 6 months of a candidate's enrolment, then an application for an extension can be made by the student (with support from the senior supervisor) to the Dean of Postgraduate Research. In addition, a department/school may apply to have a candidate's enrolment terminated at this point.*

- (c) The research proposal will not be approved until the student has completed an induction course approved by the Dean of Postgraduate Research.
- (d) The research proposal must be accompanied by the PhD Registration form (Research Proposal), available from the Postgraduate Office or the Postgraduate Studies website. Research proposals involving a contract (other than the "Supervision Agreement" which is part of the Standard Registration form) must acknowledge the signing of the contract by the Research & Innovation. All proposals should be accompanied by a signed agreement between student and supervisors in regard to IP and publications. *The research proposal should be presented in sufficient detail for the Senior Supervisor and Head of Department/School to be able to comment on its suitability for PhD study. It should include a realistic planned timetable including deadlines to be*

met, a list of objectives, description of methods to be used, and it should provide details of any special supervisory arrangements (for example, provision of alternative supervision in the case of a supervisor taking study leave). There should be statements about who has been consulted about the project, including general staff whose assistance may be required in the course of the work, and also about specific equipment or materials needed for the research.

- (e) Where the research is dependent on the approval of the University's Human Ethics Committee or Animal Ethics Committee, or any other committee or organisation, approval should have been obtained prior to registration of the proposal, where possible, full documentation of approval(s) submitted with the proposal. Where it is not possible to provide these approvals at the time of submitting the proposal registration, the Postgraduate Office must be informed when the approvals are received.
- (f) With the approval of the Dean of Postgraduate Research, and on the recommendations of the Head of Department/School and the appropriate Faculty Dean, a candidate for a Master's degree may transfer to the degree of Doctor of Philosophy provided:
- i. The candidate has satisfactorily completed any course work normally required by a candidate enrolling for a PhD. This requirement will be determined in each case by the Faculty Dean, and
  - ii. The candidate has undertaken research towards a Master's thesis or project for a period not normally less than the equivalent of six months full-time enrolment, and
  - iii. The application for transfer is accompanied by a full account of progress made in research for the Master's thesis or project work, and a PhD research proposal, as otherwise required under regulation 3(b). Transfer will not be approved unless the PhD research proposal is approved.

If the candidate is enrolled for a PhD under this regulation, the date of enrolment and registration will be backdated as is considered appropriate, normally to the date at which the Master's thesis or project work was commenced.

#### 4. Full-time and part-time study

- (a) Full-time study:
- i. A candidate shall normally be enrolled as a full-time candidate.
  - ii. The minimum period of enrolment for a full-

time candidate is 24 months.

- iii. The maximum period of enrolment for a full-time candidate is normally four years, although if extenuating circumstances related to the student's research can be demonstrated, the Dean of Postgraduate Research may extend this period up to five years.

(b) Part-time study:

- i. With the approval of the Dean of Postgraduate Research, a candidate may be enrolled as a part-time candidate.

*Note: Students who require a Student Visa to reside and study in New Zealand are expected to be enrolled on a full-time basis to satisfy the requirements of the Student Visa and to be eligible for domestic tuition fees. If you reside outside New Zealand while studying and you are not a New Zealand citizen, you have the option of either enrolling on a full- or part-time basis. While resident overseas you will be liable for international rate tuition fees. A period of overseas study (e.g., fieldwork) is permissible for students who are not NZ citizens during their PhD tenure whilst retaining the right to pay domestic fees. Such period of overseas studies must be approved by the Dean of Postgraduate Research prior to departure. Students who are New Zealand citizens may be enrolled on a full- or part-time basis and will pay domestic fees regardless of whether they reside in New Zealand or not.*

- ii. An applicant for part-time enrolment must produce evidence, including a statement from any employer, stating that he or she is not able to enrol full-time for a PhD but that he or she will be able to pursue satisfactorily the necessary study and research.
- iii. For a part-time candidate the minimum period of enrolment shall be not less than 3 years
- iv. The maximum period of enrolment for a part-time candidate is normally seven years, and the Dean of Postgraduate Research will not approve part-time enrolment unless satisfied that the candidate can devote sufficient time to study and research to be able to present a thesis within this time. If extenuating circumstances related to the student's research can be demonstrated, the Dean of Postgraduate Research may extend this period up to eight years.

*A full time candidate is one who throughout the calendar year regards study and research for the*

*degree of Doctor of Philosophy as a full-time occupation.*

*With the approval of the Senior Supervisor and Head of Department/School, a full-time candidate may be employed in the University in academically relevant work for up to an average of six hours a week over the calendar year.*

*A part time candidate is one who, because of employment or other reasons, is unable to devote his or her full time to study and research. The candidate and the Head of Department/School should discuss, before enrolment, the possibility and appropriateness of one or more continuous periods of full-time study. Included in the period of enrolment for part-time candidates should, ideally, be a period of continuous full-time study of at least six months.*

- (c) After the commencement of study and research for the degree, a candidate may, with the permission of the Dean of Postgraduate Research, transfer from part-time to full-time status, or vice-versa.

**5. Supervision**

- (a) Upon approval of the research proposal, the Dean of Postgraduate Research shall appoint a Senior Supervisor of the research, normally a member of the University of Canterbury continuing academic staff, who shall supervise the work of the candidate and be responsible for ensuring that all administrative and regulatory requirements are met. The Dean may appoint a non-continuing academic staff member as Senior Supervisor if satisfied that the student will receive continuity of supervision for the whole term of the PhD. In addition to the Senior Supervisor, there shall be a Co-Supervisor and/or one or more Associate and/or Assistant Supervisors and/or a Supervisory Committee to support the supervisor and candidate. Members of the supervisory team, other than the Senior Supervisor, may be from outside the Department/School in which the candidate is registered, and may be from another university or from outside the university system. Members of the supervisory team will be appointed by the Head of Department/School in consultation with the candidate and Senior Supervisor, and their names recorded in the Postgraduate Office.

*When the appointment of supervisors is considered, the time that they are able to devote to supervision should be taken into account, including the number of students already being supervised. The supervisory team must include members with*

*a research interest and methodological expertise relevant to the proposed research of the candidate. The Senior Supervisor must have an appropriate doctoral qualification or equivalent research experience. An Assistant Supervisor may possibly fill a more administrative role. The Senior Supervisor will take into account the expressed views of any other members of the supervisory team in the application of these regulations.*

*If associate supervisors are being appointed from another university or from outside the university system, an agreement should be signed which details the role of the external supervisor. Any payment to the external supervisor is a matter for the Department/School.*

- (b) For good reason, which may include the existence of a dispute between the candidate and a member of the supervisory team, the Dean of Postgraduate Research may replace a Senior Supervisor, and the Head of Department/School may replace any other member of the supervisory team. If a supervisor leaves the employment of the University of Canterbury, consideration must be given to whether, and in what capacity, they will remain involved in a student's supervision and an appropriate agreement drawn up. Any changes (additions, removals, replacements) to the supervisory team must be recorded on the "Change of Supervisor" form which can be found at the Postgraduate Studies website and forwarded to the Postgraduate Office.

**6. Place of research and study**

- (a) A candidate must spend at least 18 months undertaking study and research at the University of Canterbury.
- (b) For the remainder of the duration of study and research, a candidate may study away from the University of Canterbury:
  - i. with the approval of the Senior Supervisor and Head of Department/School, a candidate may undertake study and research at places and institutions in New Zealand outside the University of Canterbury.
  - ii. with the approval of the Dean of Postgraduate Research, a candidate may undertake study and research outside New Zealand for a specified period. Candidates wishing to undertake study or research abroad must complete the "Application to study abroad" form which is available on the Postgraduate Studies website. This form must be submitted to the Postgraduate Office well in advance of the planned travel.

- iii. before being granted approval under either (i) or (ii) above, the candidate must demonstrate:
  - a. that he or she has adequate financial means to meet the costs of travel or the research,
  - b. that if required, there are adequate research facilities and supervision at the proposed locations, and
  - c. that there is a satisfactory means of communication with the Senior Supervisor at the University of Canterbury.
  - d. that consideration has been given to risks associated with research being conducted at the proposed location.
  - e. Notwithstanding clause (a), with the approval of the Dean of Postgraduate Research, and on the recommendation of the Head of Department/School, a candidate may make a distance enrolment for the PhD under which the 18 month requirement of clause (a) may be reduced. Approval will not be granted unless the Department/School can show that adequate supervision can be provided, and that the necessary resources are available or can be made available to the candidate.

## 7. Reports and progress

- (a) Six months after the date of registration of the research proposal, and at intervals of 6 months thereafter, the Supervisors and the student shall complete the PhD Progress Report Form for the Head of Department/School to submit to the Dean of Postgraduate Research. The student must see the form completed by the Supervisors and sign it.  
*The report should be submitted to the Head of Department/School who should consult with the departmental/school postgraduate research committee or coordinator of postgraduate research and comment on whether progress is or is not satisfactory before forwarding the report to the Postgraduate Office for the Dean's approval. It is the Head of Department/School's responsibility to ensure that reports are submitted in accord with 7(a) above. It is important that both student and supervisors are candid in their comments made on the progress report forms. It is the responsibility of the HoD/S or delegate to emphasize this point within their Department/School.*
- (b) Before approving a progress report, the Dean of Postgraduate Research may require further

explanation from the Head of Department/School, Senior Supervisor or candidate, and may, if he or she thinks appropriate, place the candidate on probation for a period not exceeding one year. During this period the Dean will require reports from both the student and the Senior Supervisor at least every three months.

- (c) At the end of the probationary period, the Dean of Postgraduate Research may terminate a candidate's registration on the recommendation of the Head of Department/School if satisfactory progress has not been made, or make any changes to the supervisory regime considered necessary.
- (d) In exceptional cases not covered by Regulation 7(c), the Dean of Postgraduate Research may at any time, upon the recommendation of the Senior Supervisor and Head of Department/School, terminate or alter the terms of the candidate's registration either unconditionally or upon such terms as the Dean may think fit.  
*The candidate has a right of appeal to the Academic Committee against a decision to terminate enrolment. A copy of the Academic Appeals Procedure can be found at <http://www.canterbury.ac.nz/postgrad/phd/exams.shtml>*
- (e) If at any time the candidate is dissatisfied with the supervision provided or the resources available or with any other matter affecting his or her progress, the candidate should report the matter to the Head of Department/School or directly to the Dean of Postgraduate Research.  
*Candidates should first attempt to resolve difficulties within the Department/School. Department/Schools are expected to have, and to publish, their own procedures for dispute resolution. These procedures would normally involve the Head of Department/School or the departmental/school postgraduate research committee or coordinator of postgraduate research. Failing resolution in this way, the candidate should contact the Dean of Postgraduate Research directly. The candidate may seek the advice of the UCSA Welfare and Advocacy Team before contacting the Dean.*

## 8. Submission of thesis

- (a) Subject to fulfilment of the requirements of these regulations, a candidate may apply through the Postgraduate Office to have his or her thesis examined. Except with the approval of the Dean of Postgraduate Research submission must occur after the minimum period of enrolment and within the maximum enrolment period. In order for a thesis to be sent out for

examination the student must be enrolled at the time of submission and must not have any outstanding tuition fees or other charges.

- (b) The candidate shall submit two copies of a thesis embodying the results of the research and the Use of Thesis Form, which can be found on the Postgraduate Studies website.
- (c) A candidate may include in the thesis, or attach as an appendix to it, any of his or her relevant published work. Where the published work has more than one author, it shall be accompanied by a statement signed by the candidate identifying the candidate's own contribution. While published work can be included in the thesis, the thesis must be a single coherent document. Further information regarding the inclusion of published work is included in the document "Including publications in a PhD thesis" which can be found on the Postgraduate Studies website.
- (d) A candidate must indicate in the thesis any part which he or she has previously used for another degree. (See Regulation 1 concerning the requirements for original work.)
- (e) Once examiners have been appointed, as below, the thesis shall normally be sent to the examiners within 10 working days. Prior to being sent out for examination the Examiner's Request Form and the Supervisor's certificate must be submitted by the HoD/S to the Postgraduate Office.

*At its initial submission for examination, the thesis should normally be soft (not ring) bound and the candidate must pay the specified fee to cover the cost of hard binding. The thesis will not be sent out for examination until the fee is paid.*

*Candidates should make themselves familiar with the university's "Thesis Availability Policy" and the "Intellectual Property Guide" which cover such issues as the borrowing and consultation of theses, and the possibility of imposing an embargo on the use of a thesis.*

### 9. Examination

- (a) The senior supervisor must submit the completed Supervisor's Certificate (available from the Postgraduate Studies Website) within ten working days of the thesis being submitted for examination. The Supervisor's Certificate is sent to examiners alongside the thesis and hence any delay in the submission of this certificate delays the examination process
- (b) Two examiners shall be recommended by the Senior Supervisor, considered by the departmental/school postgraduate research committee

or coordinator of postgraduate research, and nominated on the PhD Examiners Request Form (available from the Postgraduate Studies Website) by the Head of Department/School or postgraduate coordinator for approval by the Dean of Postgraduate Research. Examiners should be nominated on the basis of their expertise in the research domain and/or methodologies used in the thesis. In addition, an oral examination organiser should be nominated. The oral examination organiser is usually a senior member of the continuing academic staff who has had no involvement with the thesis work. Nominations must be received no later than 10 working days after submission of the thesis. Normally one of the examiners will be from New Zealand. In choosing the overseas examiner, familiarity with the New Zealand system for PhD theses should be taken into account. At the same time an oral examination organiser is nominated by the Head of Department/School. The Oral examination organiser will be a senior member of the University staff appointed by the Dean of Postgraduate Research following consultation with the HOD/S or postgraduate coordinator of the candidate's Department/School. The Organiser will be responsible for maintaining the integrity of the oral examination process and will act as a neutral chair at the examination.

*To shorten the examining process, it is desirable that the Department/School approach proposed examiners informally before submission of the thesis to ascertain their willingness to examine. Potential examiners should be informed of the likely submission date and told that it is expected that examiners' reports be returned within six weeks. This will be done either by the Head of Department/School, postgraduate coordinator or the nominated chair of the oral examination*

- (c) Prior to the nomination of examiners, the candidate should be informed by the Senior Supervisor who the proposed examiners are. The candidate has a right to make a case to the Dean of Postgraduate Research that a particular nominated person not be an examiner. Candidates are not permitted to nominate examiners but may discuss the question of the choice of examiners with their senior supervisor.
- (d) The Senior Supervisor may not be an examiner but shall be involved in the examination process, but may, if he or she wishes, comment on the examiners' reports, within 10 days of receiving them, and will normally attending the oral examination, as below.

- (e) The examination process must be independent of departments/schools and once examiners have been nominated all communications must be through the Postgraduate Office.
- (f) Neither supervisors of the thesis nor the candidate should contact examiners about matters relating to the thesis once they have been appointed.
- (g) If the Head of Department/School is a supervisor, he or she shall appoint a deputy to act as Head for the purposes of administering the examination, including the nomination of examiners and the oral chair.
- (h) The two examiners shall each submit an independent written report on the thesis to the Postgraduate Office. Each report must be accompanied by a PhD Examiners Report form (available at the Postgraduate Studies website), which is to be completed by the examiner.
- (i) When the examiners' reports have been received, the Dean of Postgraduate Research shall determine whether the oral examination should proceed at that point. In making this decision, the Dean may correspond with the examiners in which case the nature and substance of any correspondence must be recorded. The Dean may also discuss the matter with the oral chair and the senior supervisor. The Dean may also seek new examiners' reports, replace one or more examiners or appoint an additional examiner. The oral examination organiser will be informed when he or she can begin to organise the oral examination.
- (j) After both examiners' reports have been received, copies shall be given to the Senior Supervisor, who has the right to make a written report on any aspect of the examiners' reports. The Senior Supervisor's report, signed by all members of the supervisory team, shall be submitted to the Postgraduate Office, which will forward it to the Dean of Postgraduate Research.
- (k) When the examiners' reports, the supervisors' contextual report, any formal comments from the candidate on the contextual report and any formal comments by the Senior Supervisor on the examiners' reports have been received, the Dean of Postgraduate Research shall determine whether the oral examination should proceed at that point. In making this decision, the Dean may correspond with the examiners in which case the nature and substance of any correspondence must be recorded. The Dean may also seek new examiners' reports, replace one or more examiners or appoint an additional examiner.
- (l)
- i. There shall be an oral examination of the candidate on the subject of the thesis and on the general field to which the subject belongs.  
*An oral examination is normally held both on the first submission of the thesis and on any re-submission. However, a recommendation that the thesis be revised and resubmitted after initial submission, prior to an oral examination taking place, may be made by the Dean of Postgraduate Research. The oral examination should normally be held within a month of the receipt of the reports from all examiners. Any revision of the thesis must take place after, not before, the oral examination.*  
*Any public presentation sought by the Department/School is not part of the formal University examination process, and should normally be sufficiently separate from the oral examination to ensure that there is no confusion posed by the two activities*
  - ii. The oral examination shall act as a neutral chair and does not have voting rights, but may ask questions of the candidate. He or she shall ensure that questions posed by the absent examiner are put to the candidate.
  - iii. The examiners' reports, but not the examiners' report forms, shall be released to the candidate by the organiser of the oral examination no more than one week and no less than three days prior to the oral examination. An examiner's name may not be withheld, though specific sections of a report may be, at the examiner's request.
  - iv. The oral examination shall be conducted by one of the examiners. The other examiner may take part in the examination with the approval of the Dean of Postgraduate Research.  
*Normally the overseas examiner will not be required to travel to New Zealand for the oral, but may provide advice on questions to be asked at the oral. It is common practice in the oral examination for the oral examiner to lead the discussions*
  - v. The Senior Supervisor shall also be present as an observer and participate to the extent requested by the organiser, and with the prior agreement of the candidate.
  - vi. The candidate shall have the right to have a maximum of two persons present at the oral examination as observers. Other persons

may also be present as observers with the agreement of the candidate and the organiser. The observers must remain silent unless the organiser allows otherwise, and the observers must not disrupt the examination in any way, whether audibly or otherwise.

- vii. At the request of the examiners, the candidate may be required to sit a written examination following the oral examination.
  - viii. In exceptional circumstances, an oral examination may be waived by the Vice-Chancellor on the advice of the Dean of Postgraduate Research.
- (m) After the oral examination and any written examination, the examiners shall, after consultation, submit to the Postgraduate Office the PhD Final Joint Examiners' Report Form, together with a full report on the whole examination. They shall recommend that the thesis:
- i. be accepted, and the degree awarded;
  - ii. be accepted and the degree awarded after minor amendments have been made by a specified date to the satisfaction of one of the examiners nominated by the person presiding at the oral examination;
  - iii. be rejected in its present form, but be revised and re-submitted for re-examination by a specified date;
  - iv. be accepted for another degree, with or without amendments;
  - v. be rejected with no right of resubmission.
- (n) At the conclusion of the oral, the organiser may, with the agreement of all the examiners, inform the candidate of the intended recommendation. It must be made clear to the candidate that a recommendation is being made to the Dean of Postgraduate Research who will formally inform the candidate of the outcome.
- The organiser of the oral examination is responsible for organising the examination, and ensuring that a joint report is forwarded to the Postgraduate Office. The Final PhD Examiners Report form is available from the Postgraduate Office or on the Postgraduate Studies website. This form should be signed by all the examiners present.. If the oral examiner is not present physically but via video- or audio-link then a separate signature must be obtained prior to the awarding of the degree.*
- (o) After the oral examination and receipt of reports, the Dean of Postgraduate Research shall consider all reports and recommendations, and shall determine the outcome of the examination.
- (p) In the event of disagreement between the examiners, and after the organiser of the oral

examination has taken all reasonable steps to achieve consensus, the Dean of Postgraduate Research may appoint an adjudicator to determine the outcome of the examination.

### 10. Resubmission

Where revision and resubmission are recommended and approved by the Dean of Postgraduate Research, the process for the submission of the thesis, appointment of examiners and conduct of the oral examination shall be as in regulations 8 and 9 above. Normally, the original examiners will undertake the re-examination of the thesis. The revision and resubmission option can be exercised once only. The examiners will recommend an appropriate period for the revisions to be completed and the thesis resubmitted.

### 11. Deposit of thesis

After a candidate has been approved for the award of the degree of Doctor of Philosophy, he or she shall deliver two final copies of the thesis to the University Library/Collections, one in an unbound form for hard binding and the other in electronic form as a pdf file to be uploaded to the Library website.

### 12. Variation

The Dean of Postgraduate Research shall have power to vary these regulations in respect of a particular candidate where special or unusual circumstances warrant it. In such circumstances the Dean will consult, as appropriate, with the candidate, supervisors, HoD/S, oral examination organizers and examiners.

### 13. Transitional Regulations

Students enrolled under the 2003 regulations continue under those regulations, but may elect to transfer to this set of regulations on each anniversary of enrolment.

### 14. Appeals

A candidate may appeal to the Academic Appeals Committee against any decisions of the Dean of Postgraduate Research made under clauses 3 to 9 of these regulations, normally within three months of the decision, on the grounds that:

- (a) relevant information which was not available to the Dean of Postgraduate Research at the time when a decision was made has since become available; and/or
- (b) the procedure adopted in arriving at the decision was unfair.

The appeal must state clearly all grounds relied upon by the candidate and attach all relevant documentation.

# The Degree of Doctor of Musical Arts (DMA)

Subject to UNZ CUAP approval due August 2011.

## 1. Nature of the degree

- (a) The degree of Doctor of Musical Arts may be taken in either music performance or composition. It combines a high standard of original creative (including performance) work with sustained, rigorous and systematic scholarly study at a level equivalent to the PhD, reported by a combination of scholarly writing and either public performance recital and recording, or a portfolio of original compositions and lecture-seminar, all meeting international standards. The degree involves making a significant contribution both intellectually and in practice to either the interpretative and/or technical practice of musical performance or the technical and creative practice of musical composition. Undertaken under qualified supervision, the degree promotes intellectual independence and the capacity to undertake further research in composition or performance and theoretical issues related to them at an advanced level.
- (b) All written components of the degree must be submitted in English or Te Reo Maori. Candidates wishing to submit and defend work in Maori must seek approval at the time of registration. A recommendation will be made by the Assistant Vice-Chancellor (Maori) or nominee as to the candidate's fluency and literacy in Te Reo Maori in the research subject-area and the likelihood of being able to find appropriately qualified examiners.

## 2. Qualifications Required to Enrol in the Degree

- (c) Candidates will normally be required to undertake an audition, interview, and/or submission of relevant previous academic work and receive recommendation from the School of Music.
- (d) The Dean of Postgraduate Research must be

satisfied that the candidate has adequate training and ability to pursue the proposed course.

- (e) In special circumstances the Dean of Postgraduate Research may approve the enrolment of a graduate who does not hold one of the qualifications under Regulation 2(b), but who has produced satisfactory evidence of adequate training and ability to pursue the proposed course.

- (e) Where the research is dependent on the approval of the University's Human Ethics Committee, Animal Ethics Committee, or any other committee or organisation of the University or externally, approval must have been obtained prior to registration of the proposal. Full documentation of the approval(s) received must be submitted with the proposal.
- (f) With the approval of the Dean of Postgraduate Research, and on the recommendation of the Head of School and the Faculty Dean, a candidate for a Master of Music (MMus) degree, a Master of Arts (MA) degree or a Doctor of Philosophy (PhD) degree may transfer to the degree of Doctor of Musical Arts, provided:
