

What can I do with a degree in Psychology?

Psychology.

Career planning: what do I need to know?

Knowledge of yourself is important for career decision making. Start by looking at your personal goals, abilities, values and interests to explore study and career options that are relevant to you. Some of these may change over time, so it is important to self-reflect and evaluate your career on an ongoing basis.

What do employers look for?

Many employers look for generic skills such as communication, customer-focus, cultural awareness and teamwork. With technology and globalisation changing the nature of society, skills such as resilience, problem solving and adaptability are valuable at work as well as in life.

How can I develop these skills?

- Some skills are developed through your degree
- Extra-curricular activities can help, for example

getting involved in clubs, mentoring, cultural groups, part-time work or volunteering

- Be open to professional and personal development opportunities. Whether it is undertaking an internship, overseas exchange, skills seminar, or joining an industry group – these activities will enhance your employability.

What else should I know?

The career options in this brochure are examples only and the list is not exhaustive. Some careers may require further study beyond a first degree or additional work experience. Some pathways and degrees have a recommended school background. Find more subject details at www.canterbury.ac.nz/subjects/psych

If this brochure does not answer your questions, talking to an expert such as a career consultant can help you to identify the next steps in your career decision making journey. www.canterbury.ac.nz/careers

What is Psychology?

Psychology is the scientific study of behaviour and associated biological, cognitive and social processes in humans and other animals. It is a rapidly developing field touching on all aspects of human life. Advances in neuro-imaging and molecular biology are enhancing our understanding of how the brain works, while increasingly complex theories are being developed to understand both normal and abnormal development and the behaviour of individuals and groups. Major progress is being made in understanding and treating psychopathologies such as anxiety, depression, eating disorders and addictions.

1500

hours of practical training accredited by the New Zealand Psychologists Board is required to become a registered psychologist

What skills have UC graduates gained?

Through their Psychology degree, graduates gain a valuable set of transferable skills such as:

- Independent and innovative thinking
- Critical analysis of psychological issues
- Ability to apply methods, findings and theories
- Ability to distinguish genuine findings from implausible claims
- Understanding and valuing diversity
- Designing and conducting research
- Evaluating various sources of information
- Problem solving
- Oral and written communication
- Cooperation, teamwork and leadership
- Statistical and computer competencies.

Applied learning opportunities are available such as laboratory sessions, fieldtrips and internships. These experiences deepen your skillset, awareness of others, working knowledge and employability.

Where have UC graduates been employed?

Without specified higher qualifications, graduates with a bachelor's degree in Psychology do not work professionally as psychologists. Many enter other careers that benefit from relevant skills, such as human resources or marketing.

Registered psychologists work in a number of health, social services, corrections, specialist, charitable, government and research contexts.

An increasing number work in private practice.

UC Psychology graduates have been employed in:

- Government organisations eg, Department of Corrections, Oranga Tamariki Ministry for Vulnerable Children, Ministry of Social Development, NZ Police, the NZ Defence Force
- District health boards eg, Northland, Bay of Plenty, Capital and Coast, Canterbury District, Nelson Marlborough, Southern Health Boards
- Recruitment companies eg, Sheffield, Hudson, Madison Recruitment, Manpower Group, Sourced Ltd, Brannigans Human Capital, M&T Resources, Charterhouse Resources, Randstad
- Not-for-profits eg, Barnados, Stepping Stone Trust, Salvation Army, Emerge Aotearoa, Pukeko Blue Ltd, Pathways, World Vision
- Advisory services and helplines eg, Youthline, ADANZ Alcohol and Drug Helpline
- Regional government eg, Christchurch City Council, Environment Canterbury
- Education eg, universities, technology institutes, English language, primary or secondary schools
- Research eg, New Zealand Brain Research Institute, Focus Research, Connected Group, EJ Legal, Research New Zealand
- Private companies eg, Weta Workshop, AECOM, Downer NZ, Accenture, Airways NZ, Sovereign Insurance, Deloitte, American Express.

What professional bodies can people link to?

Professional registration

Registered psychologists are registered by the New Zealand Psychologists Board. To qualify you must have completed a specified postgraduate programme/s, be registered by the Board and have an Annual Practising Certificate from the Board. New Zealand and Australia have a mutual recognition agreement that allows professional psychologists to work in both countries.

Relevant organisations

As they progress, students and graduates may join relevant professional bodies. These can offer regular communications and networking events.

- The New Zealand Psychological Society
www.psychology.org.nz
- The New Zealand College of Clinical Psychologists
www.nzccp.co.nz
- Human Resources Institute of New Zealand
www.hrinz.org.nz

Social media networks such as LinkedIn, Facebook and Twitter can provide avenues to keep up-to-date with industry knowledge, networking opportunities, events and job vacancies.

Why do further study and what are my options?

Postgraduate study can facilitate career benefits such as specialist skills, higher starting salary, and advanced research capability. It can also lead to an academic job. It is important to determine which, if any, further study will help your career.

UC offers Psychology study at honours, diploma, master's and PhD level. A Graduate Diploma in Criminal Justice is also available.

In order to work as a psychologist, some requirements must be met (see above). Professional postgraduate training is available at UC in Applied Psychology (also known as Industrial and Organisational Psychology), Child and Family Psychology, and Clinical Psychology.

If you wish to pursue a social services career, consider a course in Social Work or Counselling.

Milesa Cepe

Bachelor of Arts with Honours in Psychology
Master of Arts in Psychology with Distinction
Postgraduate Diploma in Clinical Psychology with Distinction
Clinical Psychologist, Anxiety House, Brisbane

Why did you study Psychology?

Psychology is useful, relevant, challenging and has real-world application. I was motivated to study it to gain a better understanding of myself and the people around me. This skill is transferable and advantageous to any job setting.

I am also passionate about the welfare of vulnerable children and adults. I chose to study Clinical Psychology to ensure that my values aligned with my career.

What is your favourite thing about being a clinical psychologist?

For me being a clinical psychologist is an extremely valuable and privileged role where people express their deepest concerns, fears and hopes, and entrust us to guide them to a positive transformation.

Did you gain any work experience during your studies?

I was an Intern Psychologist at Matapuna Special Treatment Unit at Christchurch Men's Prison for one year. This was the final aspect of my three-year Postgraduate Diploma in Clinical Psychology and it allowed me to put together theory and practice.

What did the internship involve?

I was involved in delivering an intensive group-based programme for high-risk violent offenders. The treatment was set in a 'Community of Change' environment whereby people in the unit were expected to engage in meaningful activities that resemble life outside of prison.

The main aim of treatment included facilitating offenders to gain insight into underlying patterns of their offending, recognise offence-related thoughts and learn skills to successfully manage high-risk situations in the community.

How did you feel supported during your studies?

The lecturers and researchers I have worked with have gone above and beyond in their roles to support my learning. Their passion and continued support helped me enormously when I struggled with the course content or workload.
