The best task I did this year was the note to a host student because it was short and sweet, but we were able to show off our imperfect tense we had just learnt. I found this one easy and not too stressful which made it enjoyable.  *Charlotte*

......because it was easy to use all the skills and different tenses we knew and show off everything we had learnt. *Hannah*

...... because we could easily incorporate different language, like negatives, passé compose and reflexive verbs.... *Kimberley*

... because I could use different tenses, passé compose, imperfect, present and future. Also because I was writing to a friend you could use casual language... *Rachel*

Because even though at first it seemed like it would be hard to come up with ideas for it, once I simply wrote what I would write if this were a real life situation, it was quite a nice task. I didn’t have to add in lots of extra information which meant that I kept the passage to a reasonable size. It was also good because I could imagine using this note in a real life situation, making it easier to write... *Emma*
