Policy Statement

Management and Security

Access to the University’s buildings is provided by way of the Canterbury Card and controlled by Cardax security card readers at designated locations on each building. Campus Services, through the Access Coordinator and Security and Campus Community Support, are responsible for the overall approval and management of access to University buildings and their environs.

Building access will be managed to provide protection to the University community and property whilst continuing to assist in the provision of an open, safe, comfortable and efficiently run environment that contributes towards meeting the teaching and research objectives of the University. As a further safety measure, the University’s Security Staff may, from time to time, undertake spot checks of persons on site after building restrictions are in operation to ensure that only approved card holders are on site.
Safety

Building access will be managed to assist the University to meet its obligations under the *Health and Safety in Employment Act 1992* ([New Zealand Legislation website](https://www.nzlegislation.govt.nz/act/public/1992/0027/latest/DLM161446.html)) and amendments, and other applicable statutory requirements.

Restrictions

Access may be restricted to areas on campus identified for reasons of privacy, commercial sensitivity, Health and Safety or other compliance requirements. Any restriction must be agreed between the appropriate access approver and the Access Coordinator.

Note: Unsupervised student events involving the consumption of alcohol are not permitted within the campus area with the exception of approved events on Ilam Fields. Refer to *Student Events on Campus Procedures (PDF, 196KB)*.
