

LLOYD L. HOSKING SCHOLARSHIP IN CIVIL ENGINEERING

This scholarship was established in 1991 by a gift of \$50,000 to the University of Canterbury. This gift was made by Lloyd Hosking as a tribute to his mother, Jean Hosking whose self denial had enabled him to complete his degree in the difficult years of the early thirties notwithstanding that she had been widowed when he was only nine. It is also in recognition of the benefits he derived in his career with Shell International from his Bachelor of Engineering (Civil) degree awarded in 1935.

1. The scholarship shall be known as the Lloyd L. Hosking Scholarship in Civil Engineering at the University of Canterbury.
2. The scholarship shall be awarded by the University Council after considering the recommendation of a special committee consisting of:
 - i. the Vice-Chancellor or nominee;
 - ii. the Head of the Department of Civil and Natural Resources Engineering or nominee.
3. The scholarship will be tenable by a student currently enrolled for the final year of the B.E.(Hons) (Civil) degree at the University of Canterbury.
4. In recommending the award the committee shall consider the general suitability of the candidate including character, academic attainment and financial need.
5. The scholarship may be held with other awards, but the committee shall take into account such other awards in recommending the award of the scholarship.
6. The committee may recommend that no award be made. The accumulation of funds may be held in trust for a successive year and, where funds permit, more than one award may be made.
7. Application for the scholarship shall be made to the Registrar of the University of Canterbury no later than 5.00 p.m. on 31 March in any year.

NOTE: The current value of the scholarship is \$4,000 per annum.
