Courses and prerequisites
Arts, Commerce, and Science degrees at UC are three-year bachelor degrees, therefore 300-level courses are the most advanced undergraduate courses offered. The 400-level courses in these subjects are postgraduate courses, only open to graduate-level students.

Professional degrees such as Engineering, Forestry, Social Work, and Speech and Language Pathology are four-year degrees, and 400-level courses in these subjects may be available to undergraduate Study Abroad students with sufficient previous study.

As long as you meet prerequisite requirements, you can normally take most undergraduate courses offered at UC. A few areas have courses which have limited entry.
www.canterbury.ac.nz/enrol/special

UC will seek pre-approval for the courses you list with your online application so that you will know before arriving which courses you can take. For questions about how your UC courses will transfer to your home university degree, please consult with the Study Abroad office at your home university.

Note: Before leaving home, check that your courses can be credited to your home university degree.

Workload
Standard workload is 60 points per semester. The minimum workload is 45 points and the maximum is 75 points per semester.

Study outside the classroom
UC has an extensive network of field stations for student and staff research. These offer multiple field study opportunities, and many Science courses include field trips that feature New Zealand’s unique flora and fauna, geology, biodiversity, and marine life.

Postgraduate study
UC also welcomes applications to postgraduate courses from graduate students who have completed a bachelor’s degree overseas.

Code of Practice
The Education (Pastoral Care of Tertiary and International Learners) Code of Practice 2021 is designed to guide institutions in their practice, and protect international students when they study in Aotearoa. UC is a signatory to the Code, and is required to meet the standards set by the Aotearoa New Zealand government.
www.nzqa.govt.nz/providers-partners/education-code-of-practice

The first thing you should do if you have concerns with your UC experience is to contact Atawhai Ākonga | Student Care, Te Rōpū Ākonga o Te Whare Wānanga o Waitaha | University of Canterbury Students’ Association (UCSA), or the Kairuruku Nawe | University Grievance Coordinator to discuss your concerns and options.
www.canterbury.ac.nz/support/code

If your concerns regarding pastoral care are not resolved by UC internal grievance procedures, you can get help from NZQA, a government organisation. They provide an independent assessment of your complaint and will either investigate your concerns or advise what you can do next. Contact NZQA at www.nzqa.govt.nz, email risk@nzqa.govt.nz, or call 0800 697 296. If your concern is about a financial or contractual dispute, you can contact Student Complaints at www.istudent.org.nz or 0800 00 66 75. This is a free, independent service for full-fee paying international students.

Hands-on learning

Keen to go beyond the classroom as part of your Study Abroad semester? As a UC Student, you’ll have a once-in-a-lifetime opportunity to undertake an internship or engage in hands-on study.

**Internships at UC**
Gain international work experience and apply your analytical skills in PACE295, UC’s for-credit real-world internship course.

Internship students work with a local organisation or business on a special project, under the supervision of a specialist lecturer.

Work can be completed throughout the semester and each project has measurable milestones.

Past interns have worked in areas as diverse as food sustainability, GIS mapping, film-making, social entrepreneurship, media and communications, and many more.

**Enterprise in practice**
INOV290 is a for-credit course that allows students to complete a project for a start-up venture, local business, social enterprise, or a student club. This project will enable you to apply your academic skills and knowledge to a practical project.

The course is taught from and supported by the staff at the Centre for Entrepreneurship (UCE), which also offers mentoring, seminars, and development bootcamps to students, to encourage entrepreneurial discovery and experimentation.

‘I got to learn about the local government system in Christchurch which gave me a unique perspective about the city, outside of UC. It was also a great experience to see the differences in work-life balance while working in another country.’

Field study

Ocean, rivers, mountains, glaciers, and indigenous and exotic forests are all readily accessible for hands-on learning.

New Zealand’s diverse geography contained in a relatively small area acts as a natural laboratory for off-campus study and makes UC an ideal option for students wishing to undertake field study.

UC operates an extensive network of field stations around the South Island, offering unparalleled access to New Zealand’s flora and fauna, geology, and marine life.

Field trips are also a key component of courses as diverse as Māori and Indigenous Studies, Political Science and International Relations, and Sport Coaching.

Every student intending to purchase Studentsafe-University Insurance is covered by the Studentsafe-University policy from the time they leave home (up to 31 days prior to enrolment).

So, if you intend to enrol at UC, you do not need to purchase your own insurance before you leave home.

The cost of this insurance will be added to your enrolment fees. The policy covers transit stopovers, but does not cover stopovers regarded as holidays.

Pre-existing medical conditions

Pre-existing medical conditions are not automatically covered by Studentsafe-University Insurance. These are medical or physical conditions that you have before you enrol in a plan, and can extend to conditions you were aware of, but did not seek treatment for.

If you require additional cover for a pre-existing medical condition with Studentsafe-University, you need to apply for cover by completing a medical risk assessment form online.

If you have a pre-existing medical condition and you intend to purchase another University-approved policy, you need to check whether your pre-existing condition is covered.

Purchasing private medical and travel insurance

If you do not want to purchase Studentsafe-University Insurance you must arrange an alternative approved insurance plan. A number of insurance plans are available that meet the minimum requirements for international students.

Medical and travel insurance

It is a requirement of the New Zealand government that all international students have appropriate medical and travel insurance.

Studentsafe-University Insurance

You can purchase Studentsafe-University cover when you complete your enrolment in New Zealand. Studentsafe-University meets the standards of the Code of Practice for the Pastoral Care of International Students.

Student visa

When your application is approved we will issue you with an Offer of Place letter, which you will need before you can apply for a visa.

You will need to apply for and receive your student visa before travelling to New Zealand.

In order to fulfil the requirements of your student visa, you must be a full-time student.

Feedback from previous Study Abroad students

Christina, Germany
‘The MAOR165 Māori course was the most interesting class because it gave me the opportunity to learn about New Zealand’s history and culture. For me, this was one of the reasons of going abroad: learning about another culture. I recognised a lot of what I had learned on my travels throughout the country, and appreciated that.’

Richard, USA
‘New Zealanders truly have a strong passion for the sustainability of the Earth. I have done four Great Walks, ice-climbed Fox Glacier, and mountain-biked around the South Island, plus I’ve done my share of kayaking, surfing, and white water rafting. I have bungy jumped the Auckland Bridge and the Ledge in Queenstown. I skydived over Wanaka, and shark cage dove in Stewart Island.’

Laura, Germany
‘Through being involved with a lot of different activities and meeting people with different opinions and backgrounds, I’ve discovered how diverse UC is. I am in class with people from all over the world every day, and it makes for interesting discussions and really broadens your horizons, and gets you thinking about ideas.’

Gabriel, Brazil
‘There’s nowhere better than the University of Canterbury for bringing together the best professors and professionals in the field. The University has a wide range of research in construction and I decided to be part of this group of researchers.’

Hayley, USA
‘The mid-semester field trip for my Ecology class was an experience I would not have been able to have at my home university. Doing field work in Arthur’s Pass was a great experience that gave me a taste of what it’s really like to do research in a natural environment.’

Zach, USA
‘The professors and lecturers seem more passionate about students learning, rather than delivering everything that is required. It really seems like they take the extra step.’

‘Back at my home university, the domestic and international students keep to themselves and don’t tend to interact much. Here at UC, I have found the exact opposite. You are part of the UC family, no matter where you are from.’
